微信包使用说明:

- 一、包介绍:
 - 1. ipaynow_wechatwp_v2.0.0.jar(微信支付包)
- 二、接入步骤:

接入基础包, 具体步骤详见基础包文档

1.jar 包导入:

将技术包中 jars\ipaynow_wechatwp_v2.0.0.jar copy 到商户项目目录中 libs 目录下 2. 所需权限与 Activity 配置:

<activity

 $and roid: name = "com. ip ay now. plugin. inner_plugin. we chat wp. activity. We Chat Notify Activity = (activity) and (both plugin) and (both plugin) and (both plugin) activity = (activity) and (both plugin) and (both plugin) activity = (activity) activity = (a$

 $and roid: config Changes = "keyboard Hidden \mid navigation \mid orientation \mid screen Size "and roid: exported = "false"$

android:launchMode="singleTop"

android:screenOrientation="behind"

android:theme="@android:style/Theme.Dialog"/>

<uses-permission android:name="android.permission.INTERNET" />
<uses-permission android:name="android.permission.ACCESS_NETWORK_STATE" />
<uses-permission android:name="android.permission.ACCESS_WIFI_STATE" />
具体可参考技术包中的 Demo
